EASTERN SEABOARD

2022 - 2023

9

Oct, 14th

First quarter of the year is over and students have a well deserved one week break.

This week went by very quickly with different field trips in elementary school. One group visited an Italian restaurant as part of Italian culture study, while another group went to the zoo to learn about animals and their habitats.

To close the quarter we held an emotional memorial ceremony to express our empathy with the relatives of the tragedy that occurred in a school in Thailand last week.
Have a nice break, rest and be safe!

This week we're studying Area 3, Read, Write, and texts. This area introduces students to the nature of language and literature and its study. The investigation undertaken involves close attention to the details of texts in a variety of types and literary forms so that students learn about the choices made by creators and the ways in which meaning is communicated through words, images, and sound. At the same time, the study will focus on the role receivers play in generating meaning as students move from personal responses to understanding and interpretation influenced by the classroom community.
