

INTERNATIONAL SCHOOL
EASTERN SEABOARD

2022 - 2023

13

Nov, 18th

On Saturday our school held our Family Fun Fair (FFF), it was a day full of games, performances, prizes and lots of fun. However, the most important thing was that it was a day for students, parents and friends to gather and create memories together.

Thank you to the Parent Teachers Association (PTA) for their dedication and hard work in making the day possible!

This week the High School (HS) Students traveled to Ho Chi Minh, Vietnam to participate in the MRISA (Mekong River International School Association) Senior Volleyball Tournament. The students have been waiting for this chance for several years as it was disrupted by covid. MRISA is an organization that ISE belongs to that conducts sport and cultural exchange experiences for Middle and High School students. The students learn many things and enjoy these experiences very much.

ISE Team

Important dates

Nov 21st	ASA Session 2. Begins
Dec 5th	Father's Day Holiday
Dec 9Th-13th	HS Finals' Exams
Dec 14th	Walkathon (Operation Smile)
Dec 16th	Last Day of semester 1

ISE Community Family Fun Fair

Thank you PTA, for your work and dedication to the event. Saturday was a wonderful day for our school. People from all areas of our community were present. Our school became a light in our community.

ISE Community Family Fun Fair

A fun time was had by all, with performances, different games, raffle prizes, and nice food. Parents had the opportunity to see outside providers after school activities. And ISE students Clubs collected money for social helps.

Elementary School KG PE

Our elementary student are exploring creativity and imagination in their PE lessons this week. Students inquired into how games are made before creating their own!

Elementary School G3

Working with writing, in third grade, we've been spending time on the writing trait of organization. Here, students are using what is called a Venn Diagram to organize similarities and differences. So they look at, for example, two characters in a book they're reading: what is similar about the characters goes where the circles overlap, and the differences go left and right in the separate spaces, one for each character. This makes writing paragraphs much simpler, as everything is pre-organized

Elementary School G4

Elementary School G5

In Grade 5 we are learning about Earth and how it changes. We collaborated with Ms. Susan and Ms. Mandy to explore the different types of rocks, how they were formed, and other interesting facts.

Secondary School Science G6

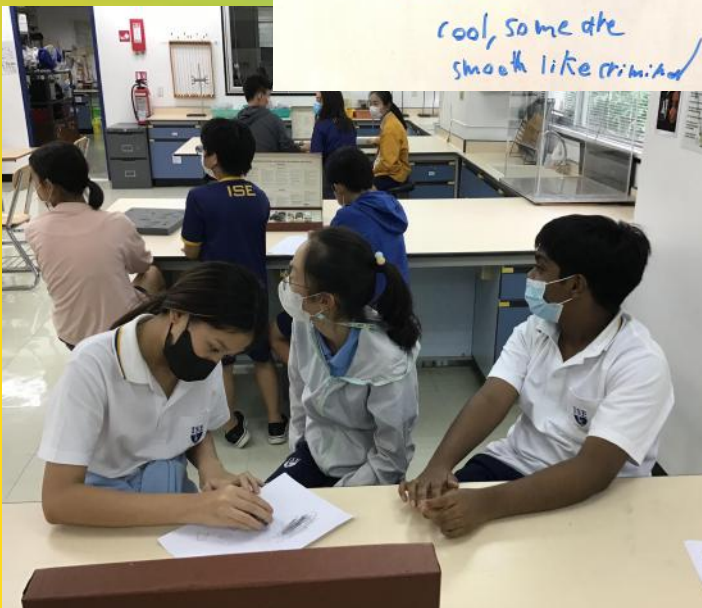

Very good!

I really enjoyed! It was really fun to see many kind of rock, especially to see many mineral. There was many beautiful stones!

I like the minerals
Ohh rock its
cool, some are
smooth like crinoid

On Monday, November 14, Grade 5 and Grade 6 Science students teamed up to have a guided tour with Secondary Science and IB Teacher Ms. Susan of the Secondary School's rock collection. G5 is studying Earth and Grade 6 is studying the "Geosphere" as part of our lesson on "Earth's Systems".

Working in groups of three, students examined igneous, metamorphic, and sedimentary rocks, and looked at the properties of some minerals and crystals. We even wrote our names and drew with a rock called "graphite" that is found in pencils! Ms. Susan also had some gems on hand to show us a comparison of what a raw ore, mineral, or gemstone looks like - such as garnet - versus what it looks like after a jeweller expertly cuts and polishes it.

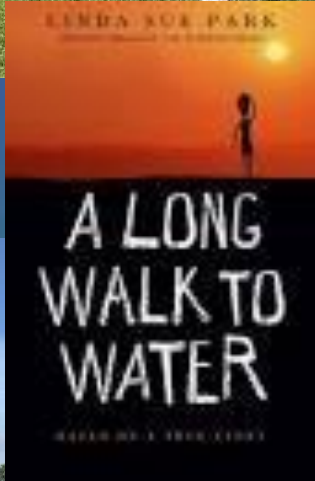

It was fun for the classes to team up, and we all learned a lot through this excellent hands-on lab!
Thank you Ms. Susan!

I really enjoyed exploring stones, especially I liked the stone called Aluminum ore.

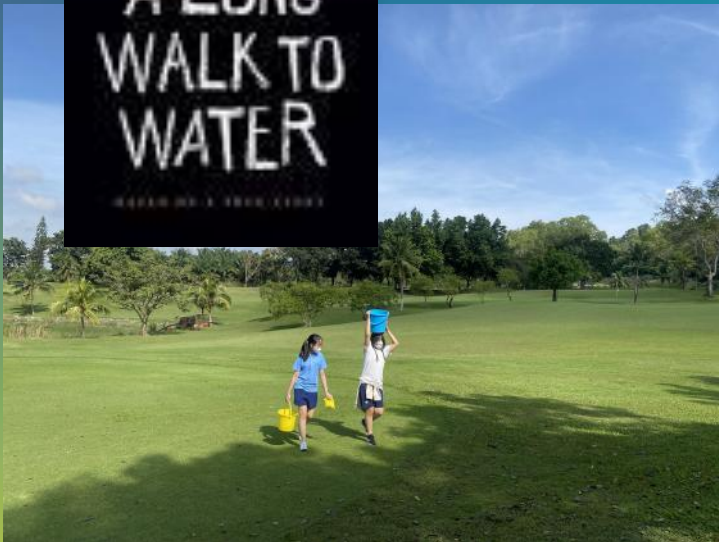

— Yeonah

It was very cool, I want to see with the microscope next time.

Secondary School English G7

The Grade 7 English students are reading "A Long Walk to Water" set in War torn Sudan, Africa during 2 different decades. The guiding questions have focused on the importance of sustainability, perseverance and finding solutions to global issues. On Friday, the girls took their own 'long walk to water' on Burapha Golf course to gain a personal understanding of the main two character's challenges: Nya, a young Sudanese girl's had a daily 8 hour walk for clean water, and Lost Boy refugee, Salva faced an 800 km walk for survival. Monday's ISE UNICEF day will further help the grade 7' class understand how we can all work together to solve global problems.

Secondary School MRISA Volleyball

Our High School Volleyball Team travelled to Ho Chi Minh on Wednesday, 16th till 19th, to participate in MRISA tournament.

Some parents travelled to cheer them in the competition. Great experience after a long recess in the sports competitions.
