

2021 - 2022 # 22

Feb, 18th

On Tuesday, the grade 11 Science students presented about different challenges. The grade 9 and 10 students and some teachers attended. It was interesting to see how they applied their knowledge and creativity, but the most important thing was their work process and the cooperation between the different groups.

Next week the Elementary School is hosting a Literacy Week. They will be really busy with a variety of activities every day. Also the Middle and High School students will have a cultural trips on Friday.

ISE Team

Important dates

Feb 21st-25th	ES Literacy week Book swap
Feb 23rd	PTA Thai day
Feb 25th	MS-HS Cultural trip
Mar 16th	Student Led Conference

Literacy Week 2022

READ A BOOK, SHAPE YOUR LIFE.

Activities:

February 21	DEAR - Drop Everything And Read
February 22	Reading Buddies
February 23	The Book without Pictures
February 24	Book Presentation Day
February 25	Be Your Favorite Book Character

BOOK SWAP

Elementary Literacy Week

Join us in a book swap where you can swap a book with someone else!

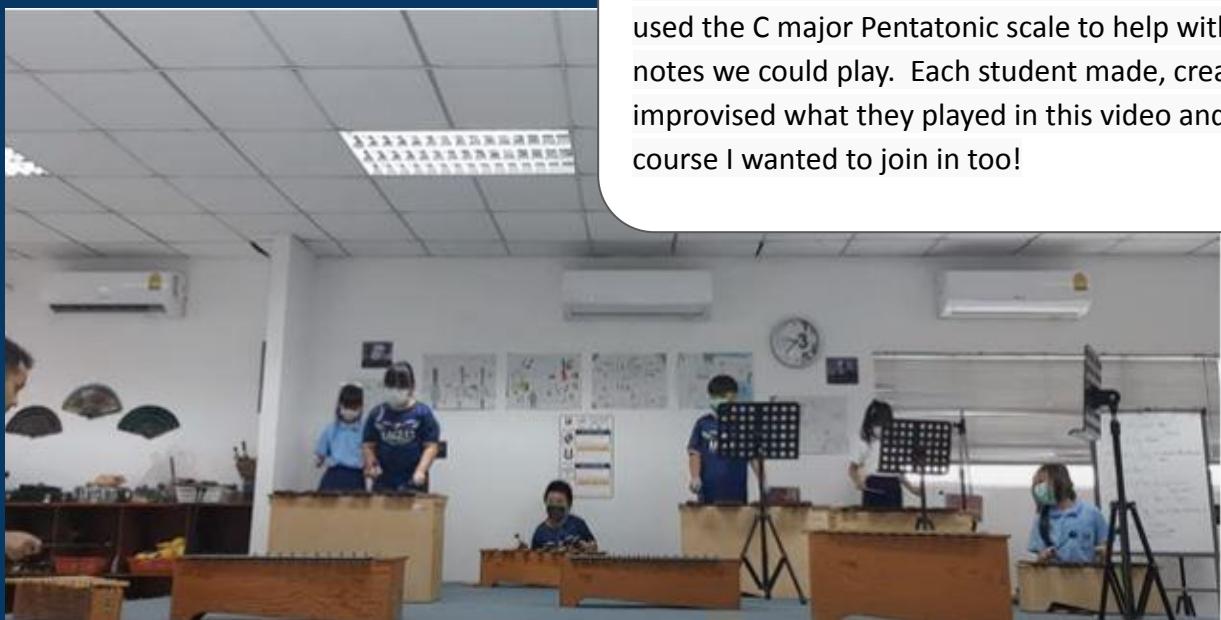

Here are the rules:

- Bring a book to school during literacy week that you would like to give away
- Make sure the book still looks relatively new (no missing pages and torn pages)
- The book should be in English (it can be bilingual, but English should be one of the languages)

At the end of the week, you will choose a book and bring it home to enjoy!

G1 & G2

Gr 1 and 2 are learning to take risks in improvising a melody to play while others keep a steady beat. We used the C major Pentatonic scale to help with what notes we could play. Each student made, created and improvised what they played in this video and of course I wanted to join in too!

G3 & G4

Gr3 and 4 are learning how to play together as an ensemble while using the recorder. The music piece is called "**Suogan/Gently Sleep**". In this piece, the challenge for them is to learn how to keep a steady beat while playing 4 different parts together. Check out **ISE Instagram** to have a little peek at their progress so far.

Elementary School

Thai for thai

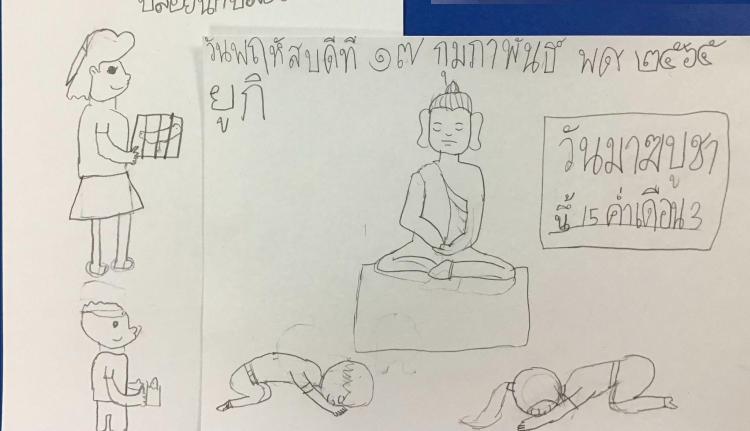

To celebrate the diverse cultures and learn students' own culture at ISE, this week Thai for Thai class students celebrated and learned about Makhabucha day.

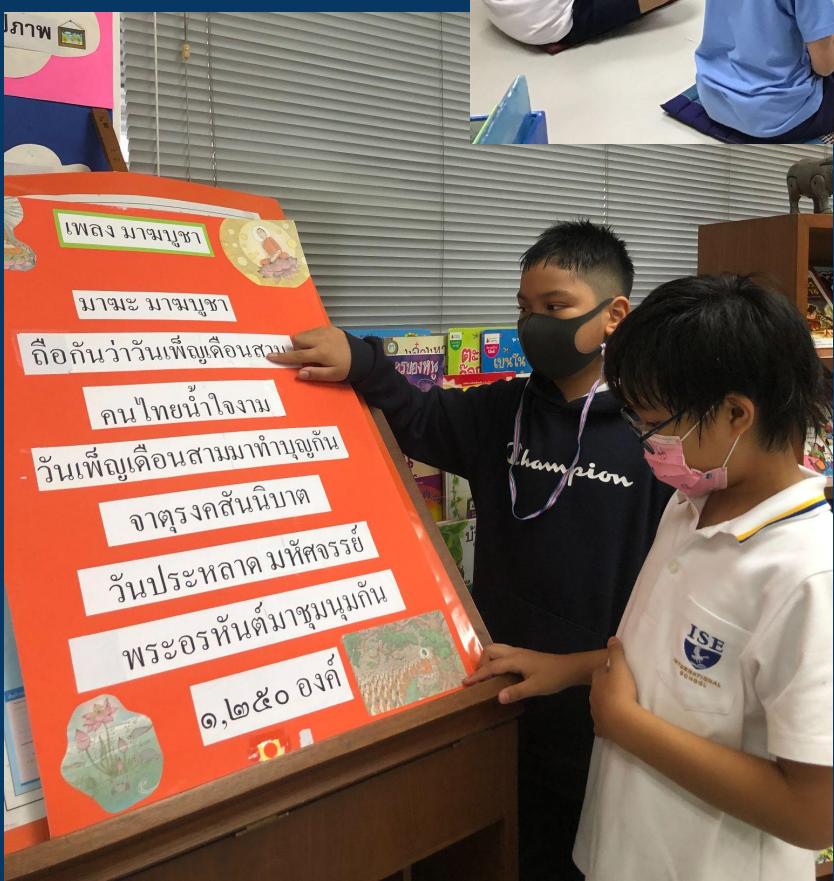

Makha Bucha Day, which falls on the full moon day of the third lunar month annually, celebrates Buddha's teachings and commemorates a gathering between the Buddha and 1,250 of his first disciples. The holiday is most celebrated in Thailand, as well as other Southeast Asian countries like Laos, Cambodia and Myanmar.

วันมาฆบูชา ๑๕ ๓ ๒๕๖๓

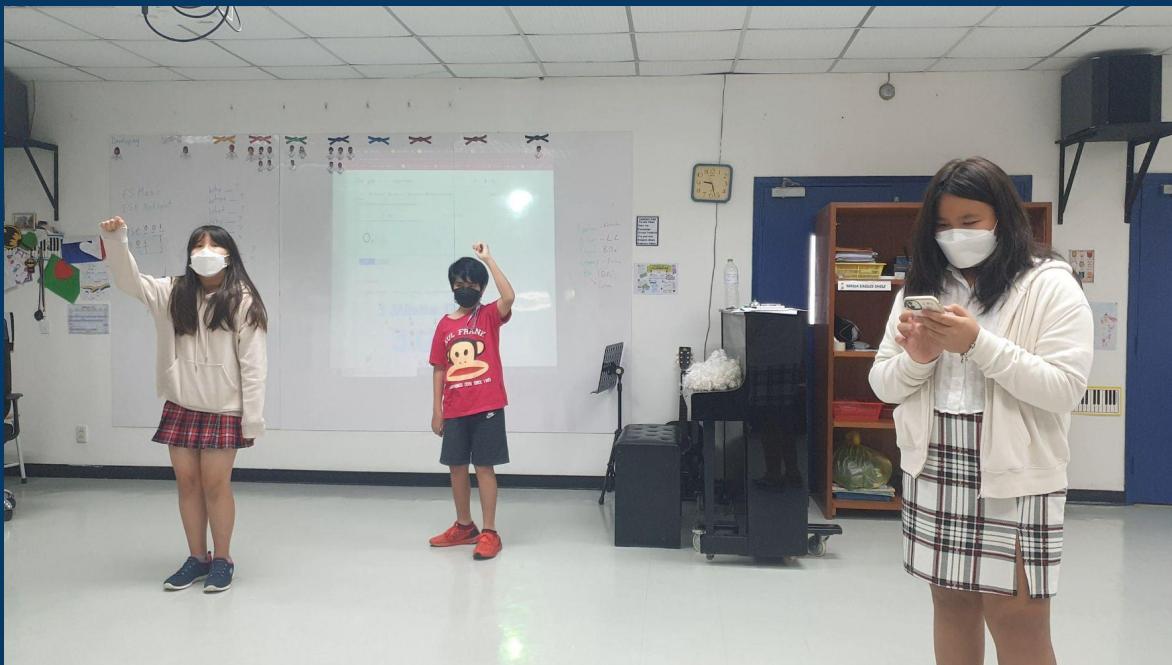

ปล่อยกบลงบ่ำ

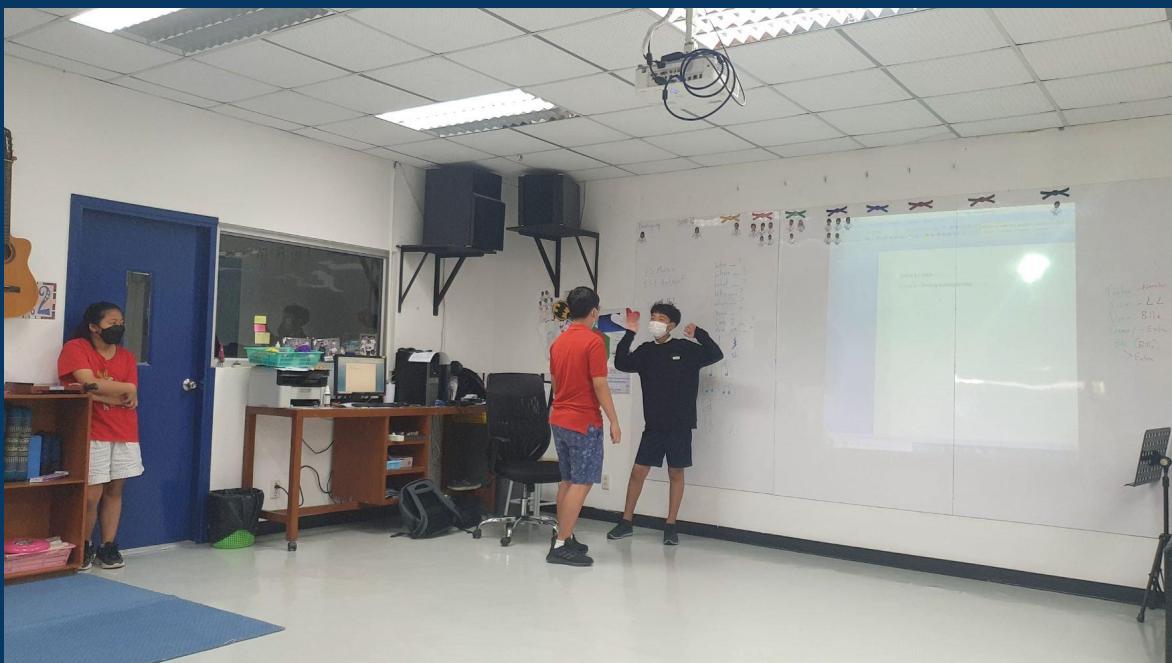

Students learned the history and the meaning of Makha Bucha Day. They practice Buddhist manners and learn how to do formal meditation.

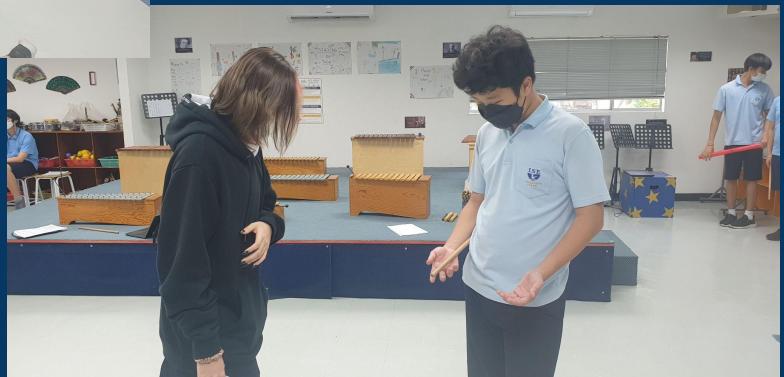

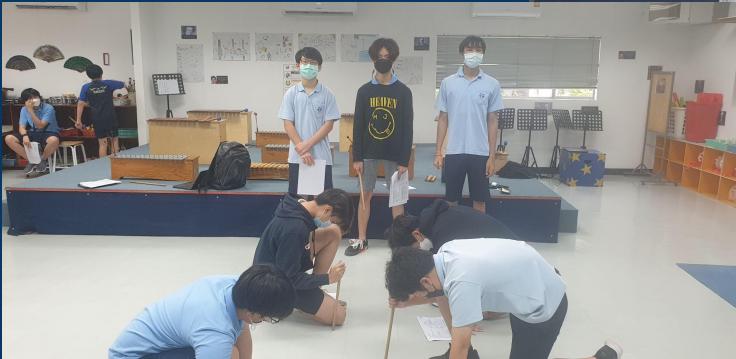

G6

Recently, Gr6 has just finished reading a short story called **"The Landlady" by Roald Dahl**. The students are in 2 groups collaborating their **own version** of the story. We are applying our skills from Stanislavski's "Emotional Recall" to help them create performances that audiences can recognize and identify the emotions and actions being portrayed. We have also been diving into "improvisation" to help create scenes as we know the characters from our reading. Experimenting on placing these characters in situations and how they would solve them.

G7 & G8

G7 and 8

They are currently reading and performing "**Macbeth**" by William Shakespeare. The students are using a modernised script by the BBC which tells an alternative version of the story. While it is different, the message and the main plot of the story stays true to Shakespeare's original intentions. While performing, the students will be learning about the **history of Shakespeare's plays**, their importance and why these stories are still admired today.

G9

In Chinese grade 9 this week, we have been studying about the story of “**布達拉宮**”(**The Potala Palace**) , and we watched the documentary about it .Then we did the presentation about The Potala Palace and did the unit’s vocabularies test.

G9 & G10

The 10th graders resurrected their presentations about Southeast Asia from last year's online Social Studies class to teach the Grade 9s about the geography, culture and history of the **Southeast Asian countries**. It was very fun to share and learn from each other!

G11

Science Challenges

On Tuesday, 15 February, the Grade 11 students presented the results of their IB Group 4 **Science Project**. In attendance were the students from Grades 9 and 10, as well as some of the IB teachers. Their presentations were excellent! They described their challenge and how they worked together to come up with solutions. They shared their report in an enjoyable way. It was very clear they demonstrated several of the IB learner profile characteristics, including Open-minded, Thinkers, Risk Takers, and Caring.

G12

The IB Biology students in Grade 12 studied the effect of the enzyme catalase, which is naturally found in potatoes, on hydrogen peroxide. They varied the temperature of their enzymes to see what was the effect of temperature change.
