Elementary School 100 Days KG & G1

🎉 100 Days of Learning! 🎉

Our Kindergarten and Grade 1 students celebrated the 100th Day of School with lots of fun activities, learning, and a very noisy parade through the elementary corridors and classrooms!

In American schools, this day helps children see how much they have learned and grown since the start of the year. Students practiced counting and explored the number 100 through games, crafts, and hands-on activities. It was a joyful day full of learning, laughter, and excitement!

Elementary School ASA SPORTS G4&5

After School Sports Club for Elementary School Students

Our Elementary After School Sports Club is off to an energetic start as students explore a variety of sports while building teamwork and sportsmanship skills. Students started by developing their badminton skills through friendly matches.

Participants are learning how to work together as teammates, communicate on the court, and think strategically during games. Along the way, students are improving coordination, agility, and confidence while practicing fair play and encouraging one another.

We look forward to introducing more sports throughout the year as students continue to grow as athletes and supportive teammates.

Secondary School Media & Literacy Design

Media & Literacy Design Caring in Action

Be Caring

Caring for me is being kind and helpful to others. It means listening, sharing, and showing respect so people feel safe, happy, and valued.

As part of our Caring Month at ISE, students explored the meaning of caring through Media & Literacy Design by analyzing what caring means to them and expressing their ideas through poster design. This process encouraged reflection, critical thinking, and creativity as students transformed their ideas into visual messages. You will soon see some of these posters displayed around the school, sharing students' perspectives on caring with our community.

Caring is...

paying attention to what matters and being thoughtful in how we respond to it. It means acting with kindness, empathy, and respect in the choices we make each day.

CARING

To me, caring means to choose kindness, empathy, and understanding how you treat others and yourself. It means noticing when people need support them, whether that's through listening, helping, or simply showing respect. Caring about yourself is just as important, it's to give yourself patience, setting boundaries, and taking care of your mental and emotional health.

Secondary School Chinese B G8,G9 & G10

Chinese Language Learning Beyond the Classroom

Last Wednesday, our Grade 8 and Grade 10 Chinese classes welcomed Khun Guy from the Library as a guest speaker. He shared his personal learning experiences in China, giving students an authentic look at how Chinese can be used beyond the classroom—especially as a second or third language. Students listened attentively, asked thoughtful questions, and engaged in meaningful discussions, making the session a valuable and inspiring learning experience.

Secondary School ESAC Basketball U19

ESAC Basketball – MIS vs. ISE

ISE proudly hosted MIS on Tuesday 4th, for an exciting ESAC basketball match. Both our boys' and girls' teams demonstrated strong basketball skills, teamwork, and great sportsmanship on the court. The boys fought hard and gave their best effort in a challenging game, while congratulations go to our girls' team for a well-deserved victory! Well done to all players for representing ISE with determination and team spirit.
